How can we help?

Corrections for System Performance Measures

- Relationship to Head of Household

    ➢ Under 10% flagging, but this is one of the most important and least difficult elements to collect

- Homeless History

    ➢ Over 10% of adults flagging, important to Chronic Homeless documentation and SPMs

    ➢ Cold Weather beds have much improved rates for this year!

- Income Sources (at Start and Annual Assessment)

    ➢ Under 10% at Start, errors will multiply

    ➢ Way over 10%, complicated issue!

- Annual Assessments

    ➢ Way over 10%

What's Next

Calendar review for upcoming federal reports (System Performance Measures) and HMIS users meetings (Feb 3rd)
