More Accurate – the more time that passes, the less accurate the data

- Missing or inaccurate data could be found on paper forms, but the client maybe already exited
- Typos and mistakes made more often

More Useful – when data is up to date, everyone is better off

- Clients can get the referrals they need
- Agencies know who they serving at any time and can reduce trackers
- CoCs can report on data with confidence

Room for Improvement: Missing Data

Data Collection methods

Which paper forms are used? (if not entering data directly)

Make sure to collect all required data elements based off the HMIS@NCCEH Assessments on [nccceh.org/hmis/administrative](https://www.nccceh.org/hmis/administrative)

Who is trained to collect data?

Sometimes staff speaking to clients have not received training from their Agency Admin (or NCCEH) – make sure they know what to collect and why

Where does data collection take place?

Consider how the physical location of client interviews and corresponding forms impacts your ability to ask the right questions

Reason for Leaving

Why has this client's project exit occurred?

Common *Reasons for Leaving*:

- *Completed program* is when a client leaves after moving into housing with support from the project.
- *Left for housing opp. before completing program* means that the client found other shelter or housing without support from the project.
- *Does not or no longer qualifies for the program* is used when the client can no longer use core services (financial or supportive) and is no longer eligible for the project.
- *Unknown/Disappeared* is used when project staff do not know the reason for leaving.
